

SEARCH AND RESCUE AWARENESS (SAR)

FEBRUARY 22,
2023

•
VIRTUAL
9AM-1PM MST

This 4 hour course will provide animal responders with the basic knowledge and safety skills needed to integrate with traditional Search and Rescue. This introduces the fundamentals of search and rescue as it relates to human safety and animals in a disaster situation.

Instruction includes:

- Fundamentals and principles for in conducting a search
- Considerations in executing the rescue
- Personal and victim safety practices
- Scene Assessment and considerations for animal response

WiFi connection and computer with speaker and camera capabilities are needed for class

A link to the training will be provided to registrants during the week prior to class, as well as the class materials for the participant to have before class. All items will be emailed to the address listed on the registration.
