USING DIGITAL/ELECTRONIC INVESTIGATIONS TO SOLVE ANIMAL CRIMES

Using Digital/Electronic investigations to solve animal crimes involves using digital tools and techniques to gather, analyze, and interpret information from various online sources. These investigations can be conducted for various purposes, including cybersecurity, law enforcement, and solving animal crimes. This comprehensive course covers critical steps and topics to consider when conducting an internet and electronic investigation.

It's important to note that the specific techniques and tools used in an internet and electronic investigation will vary depending on the nature of the investigation and the resources available. Maintaining professionalism, legal compliance, and ethical standards is paramount in conducting successful investigations. This course will prepare you for the latest use of digital/electronic investigation techniques to solve animal crimes.
